Waste Seperation: A Guide

Have 2 containers for different wastes.

Don't throw away paper, cardboard, plastic and glass bottles together. Separate them.

Make it a habit.

Be mindful of your environmental impact ON CAMPUS.

Keep recyclables clean and dry.

Remove leftover food from any plastic or paper before putting them in the bin.

Know what can be recycled.

Not all plastics on campus can be recycled in our bins.

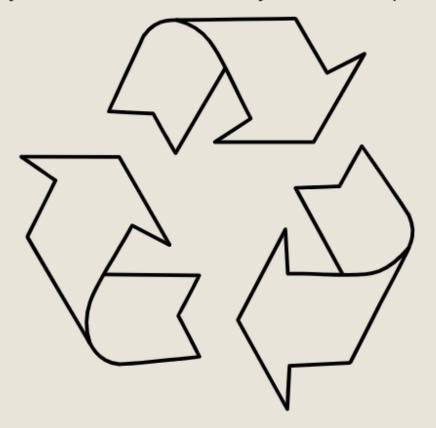

Do your part in saving the environment.

Practice Proper Waste Disposal

You can help make the clean and green dream come true.

Ask your RA what can be recycled on campus.

Do your part today to help keep our campus clean.
